Guardian's SENTINEL™ Manual Lift Barrier Gate system is designed and engineered to easily restrict vehicular traffic.

The SENTINEL™ System's main function is to prevent vehicles from proceeding through entry or exit locations with limited or no security available.

The SENTINEL™ Manual Lift Barrier Gate System provides extremely effective and economical unmanned traffic control. The SENTINEL™ product is manually activated with counter-balanced technology.

*GUARDIAN reserves the right to make changes to specifications at any time*
